

A Pathway to Success

## Leading Practices for Software/Technology Companies

With thousands of successful implementations, NetSuite has a deep understanding of software and high tech businesses and the many challenges they face.

With the constantly changing landscape of the software industry—companies are continually having to adapt to the demanding needs in such a dynamic market. Software companies are simultaneously struggling with:

- Manual and inefficient financial close processes.
- Gaining real-time visibility into company performance.
- Synchronising complex order, billing and revenue recognition processes.
- Managing global business operations.
- Financial controls and reporting.
- Rigorous audit requirements.

### NetSuite:

Built with leading practices for software companies

- **Continuous Customer Lifecycle Engagement** to ensure seamless continuity from sales to services to support.
- **Full visibility across the organisation** to operate at the speed of modern business, drive results and scale.
- **More than 3,000 hours worth of industry-leading best practices** already built in to the system.
- **Over two decades of expertise** across thousands of software and high tech industry deployments to drive value on Day 1.
- **150+ pre-built reports and pre-configured roles** with dashboards and business intelligence metrics.

As they seek to address these challenges, software and high tech companies are concerned about the time and capital required to fix their back-end systems. However, they realise that the ability to rapidly adapt and scale is critical to their success. What they need is a proven solution that can rapidly accelerate their business with a modern architecture—to go from zero to cloud in as few as 100 days. *What they need is NetSuite.*

NetSuite delivers a unique set of processes, activities and systems specifically designed to deliver rapid value. It provides customers with a strong foundation to transform their business

with a pre-configured solution and methodology that includes proven:

- Detailed workflows
- Pre-configured functional roles
- Dashboards
- KPIs

These leading practices leverage NetSuite’s unmatched experience and knowledge in the software industry. The focus is on enabling customers to rapidly meet their business objectives and seamlessly grow and scale with NetSuite.

- Asset management

**Accelerate**

- Financial planning and analysis
- Payroll and people management
- Professional services automation

**Dominate**

- Operate with global scale
- Country-to-country localisation
- Usage, meter and consumption-based billing

## A Proven Path to Success for Software/ High Technology Companies

NetSuite delivers a unified and phased pathway for our customers to succeed and scale their business. Here is how it works:

- The first step ensures software companies have a real-time view into business performance and the metrics that matter.
- A solution that automates critical finance and accounting processes, increasing the accuracy and efficiency of the financial close process is critical. From our experience, this is the foundation that supports future software company development and scale.
- From there, software companies are in a better position to capitalise on new opportunities and prepare for rapid progress. They can synchronise complex billing and revenue management flows, automate subscription and renewal processes, and embark on global expansion. This phase is critical as software companies must balance the need for establishing compliance and controls with remaining agile to respond to marketplace dynamics.
- Once software companies can support multiple subsidiaries and currencies across global operations, they can tackle other challenges such as a lack of business visibility or inefficiencies in their embedded professional services organisation. NetSuite has seen software customers improve professional services productivity by over 45%.
- Ultimately, the focus turns to innovative strategies that help maximise customer lifetime value, such as leveraging predictive analytics. NetSuite has seen its customers improve their actionable insights by over 50%.

### NetSuite:

#### At a glance

- World's #1 Cloud Business Software Suite
- Used by more than 22,000 customers in 200+ countries and dependent territories
- Founded in 1998

*\*Note: Roles included depend on step in the evolution.*

## Delivering Transformative Results

Solution providers will often talk about ‘roles’—however, NetSuite delivers all the tools needed from day one so that anyone can get up and running quickly with the right foundation to be successful. Whatever the job function, it will come pre-configured with all the KPIs, reminders, reports and value-driven dashboards for their daily and strategic needs—proven from years of real-world use by thousands of people in similar roles at software companies.

In a recent study by SL Associates, software companies reported stunning improvements in key performance metrics after switching to NetSuite’s cloud-based solution.

|                              |          |
|------------------------------|----------|
| Actionable Business Insights | +50%-80% |
| Order Processing Efficiency  | +45%-75% |
| Finance Staff Productivity   | +20%-50% |
| Finance Close Time           | -40%-70% |
| Compliance Support Time      | -25%-45% |
| IT Support Resources         | -45%-70% |
